

Soviet Nautical Code Flag for "Quebec" (letter Q), dated 1991.

The same flag stands for the Russian letter "D" (Dobro) in the Soviet naval code.

In wool bunting, same quality and construction as the typical Soviet Navy ensign and other naval flags of the period. Measures 3.5' x 4.5'. Comes with a long attachment rope, complete with metal hardware to hoist on the line. The hoist sleeve shows markings of the Vladimirskaia Factory, quality control stamp, manufacturing standard code "GOST" and a 1991 date of manufacture.

In good condition. There are a few moth holes, mostly near the hoist sleeve, that are not too detractive considering the overall size of the flag. The flag is completely sound, and the color is bright, not showing any fading.
