

Polish-made "Generalissimo Stalin" Lapel Pin, C late 1940s.

14.5mm x 20.4mm (needle/pin 47.4mm long from back of plate to its tip). Brass-plated steel image displays portrait of Stalin along with Polish inscription to the Generalissimo.

Good condition. Very little of the original gilt has survived. Polishing would brighten the image but, depending upon the thickness of the brass plating, it would probably change its appearance to a silver color.
