

Russian Imperial Department of Establishments of Empress Maria collar tab device, circa 1900.

32 mm high by 18.5 mm wide. Bronze gilt. Very well made. Two piece, vaulted construction featuring the "M" cipher of the Empress centered under the imperial crown on an oak and laurel wreath. Both original tines for attachment on the reverse.

Very good to excellent condition showing no wear. The detailing is almost as fine as one would expect to see on a high quality miniature regimental or graduation badge.
