

Artillery or Tank Corps officer breeches, circa 1950s.

Essentially identical to WW2 issue.

Wool, cotton (lining and the under foot straps), plastic buttons, steel adjustment buckles, steel waist clip. 30" waist, 26" inseam.

Very good condition. A few light stains that should disappear with a dry cleaning. One small moth nip on the front of the right leg about 4" in from the fly. The foot straps show wear but are in sound condition and original to the garment.

Essentially same as those worn in WW2, these would make a nice match with either a WW2 Tank officer's dress mundir or WW2 service kitel tunic.
