

Enlisted Man's or NCO's dress aiguillette for parades and honor guard details, circa 1970s-1980s.

13" - 14" in length. Heavy silver wire construction, with a brass tip that measures nearly 4" long.

In excellent unissued condition. There is minimal tarnish to the brass tip from storage, not detractive. A little polishing of the brass (that was careful not to get any polish on the silver wire) would make this a handsome addition to a Soviet EM uniform.
