

Medal for Irreproachable Service in Fire Department, 2nd class (for 15 Years of Service).

In silver-plated and gilded brass; 32.1 mm wide. Excellent condition.

This version of the long service medal was awarded exclusively by MVD to officers of its auxiliary services, primarily firefighters. Unlike the KGB long service medals, it shows no Roman numerals on the obverse, whereas reverse writing does not specify the service (as it does on standard MVD, MOOP and Armed Forces long service medals).
