

Order of Suvorov, 2nd cl, Type 1 (on suspension), expertly made REPRODUCTION.

In base metal with "cold" enamel. The badge is of riveted two-piece construction, with superimposed center medallion; measures 50 mm wide, 51 mm tall including the eyelet. This top notch replica has extremely well executed, "life-like" details, better than most other copies we have handled to date. The metal creates total impression of gold and silver, with correct "patina" in the center. The 30 x 20 mm suspension device is of correct dimensions and construction, with nicely "faded" red ribbon and "mint marked" screw plate.

The reverse of the badge shows engraved serial number which may differ from the example in our photo.
