

Yuriy Gagarin table medal, 1990.

In bronze, 50 mm. Obverse shows bas-relief of Yury Gagarin in his trademark space helmet. The reverse depicts a monument with inscription "Baikonur" in two languages (interestingly, the Latin version is an unconventional spelling "Baykonoor"). There is a logo of the Moscow Mint at approximately 6 o'clock on the reverse; next to it are the initials of the two medalists who created the artwork, A. Shekhoyan and G. Ognev. This 1990 medal is one of the last table medals of the Soviet era; a total of 3200 were struck.

In excellent condition.
