

Fushun Aluminum Factory #301 Memorial Medal, #11249.

circa 1950s.

Brass gilt, enamels; measures 38.2 mm in height, 39.6 mm in width.

The badge is in fine to very fine condition. The enamel is well preserved overall having only a couple of tiny chips (almost unnoticeable) and minor surface rubbing. The gilt finish shows minor wear, still clearly visible in recessed areas of the star and starburst on the obverse. The pin attachment is fully functional.

A very uncommon early Chinese communist award!
