

Medal of a Holder of Honored Title of Azerbaijan Soviet Socialist Republic, circa 1970s - 80s.

German silver, "cold" enamels; medallion measures 27.7 mm in diameter. The suspension shows raised logo "LMD" (Leningrad Mint). The obverse shows ancient "Maiden's Tower" in Baku and an oil derrick.

In excellent condition. The enamel and details are perfect. There is only minimal wear to the nickel finish. The copper screw post is full length, approx. 11 mm, and comes with original screw plate marked "Leningrad Mint".

The medal was probably introduced during the 70s. Unlike many other Soviet republics that had medals specific to the title, Azerbaijan issued a single generic award to holders of all of its "Honored" titles (there was also a similar medal for all "People's" titles of Azerbaijani SSR.)
