

Excellent in the Air Force badge, screw back version, circa 1969-70.

Aluminum, paint, 41.3 mm x 31.0 mm. Features screw back attachment, unlike the AF proficiency badges from the 70s-80s. Early style logo of the Pobeda Factory to the reverse.

Excellent condition. Comes with original screw plate marked "Pobeda Factory, Moscow."

This version of the badge was produced only once in a single series by Pobeda Factory. Its screw back attachment and comparatively nice quality makes it different from all the aluminum badges manufactured in the later years. This variation is quite scarce compared even with the earlier badges in brass and enamels.

/See "Uniforms of the Russian Air Force, Volume 2 Part 2(1955 - 2004)", Kibovsky et al, C. 2005, Moscow/.
