

Order of the Patriotic War 1st class, Type 3, #597721, 1985 issue.

Silver gilt, enamels; 45.6 mm tall, 43.6 mm wide; weighs 26.8 g not including the screw plate. Sub-variation without a depression around the screw post. Note the serial number, which is uncommonly low for the Type 3.

Excellent condition. The gold plating is well preserved on both sides, although it is partly obscured by attractive silver patina. The enamel has only a few microscopic contact marks, no wear visible to the naked eye. The factory-applied dark finish on the rifle and sword is still present. The screw post is nearly 14 mm long, has not been reduced. Original screw plate is included.
