

Greece, Red Cross Medal for the First Balkan War of 1912-1913.

In silver and enamel; measures 31.0 mm in height (incl. eyelet), 27.9 mm; weighs 8.9 g without the ribbon and connecting link.

In excellent condition. The enamel is essentially perfect, has only microscopic contact marks. There are a few miniscule dings to the edges of the cross, barely noticeable, while the surfaces are pristine. The ribbon appears to be of the period, albeit it is of the type usually associated with the WW1 Greek Red Cross medal.
