

Complete set of 18 postcards with color photos of Moscow architectural landmarks, dated 1987.

The size is continental 6" x 4", published by Aurora Art Publishers, Leningrad, circulation 168,000 copies. The set comes in its original cover sleeve. The images are high-resolution color photos of 18 of Moscow's numerous architectural landmarks, some of them rarely appearing in photo albums or postcard sets and much more interesting for that. The verso is divided, the information about the image is printed in the upper left-hand corner in English and Russian. The cover sleeve features an index of the postcards, also in English and Russian.

The set is in very good to excellent condition. The cover sleeve shows minimal shelf wear and scuffing at the fold lines. The postcards are in near-mint condition, showing just an occasional tiny corner bump or an even smaller edge bump. The paper of the verso shows an unusual and very attractive vignette color pattern.
