

Porcelain Desktop Bas-Relief of Stalin, circa early 1950s.

Stands approx. 4 1/4" tall, the base is roughly 2 3/4" x 2". Unmarked, probably made in a Soviet socialist satellite Eastern-European country, such as Hungary, East Germany, or Bulgaria.

In excellent condition. The obverse is pristine. The reverse shows a few minor imperfections to the mass, not affecting the artwork's presentation.

Please note that the penny in our photo is for size reference.
