

Russian Empire, Private Elementary School Graduation Diploma issued on 23 August 1907 to Efrosinya Savchenkova, graduate of the Golta private elementary school.

Large format, 9" x 14". The certificate confirms that daughter of an Olviopol petty bourgeois Efrosinya Georgievna Savchenko, of Russian Orthodox faith, born on 25 September 1897, has successfully completed the course of studies in the Golta private elementary school. The certificate was issued on 23 August 1907.

In good to very good condition. The horizontal fold at the center is visible but strong, showing just the beginning of separations at the ends. The margins show fraying and short tears, from mild along the bottom edge to severe along the right-hand edge. However, the wear does not reach the frame or text of the certificate, and most of it is repairable with a little patience, if desired. All the printed and handwritten text is clear and perfectly legible.

Please note that the pen in our photo is for size reference.
