

Medal for Valor, Type 2 Variation 1, #3567878, circa 1944-45 issue.

The medallion is in silver and lacquer; measures 42.5 mm in height incl. eyelet, 37.3 mm wide; weighs 26.5 g not including the suspension and connecting link.

In very fine to excellent condition. The lacquer in the letters is generally well-preserved - far better than usual - having only a few small chips to some of the letters, while most of it is still intact. The medal shows almost no wear other than a few minuscule dings to the edge and a few tiny scratches on the reverse. The raised details of the artwork are perfect and exceptionally crisp. Nice even patina to silver on both sides.

Comes an original late 1940's suspension device in brass with a well-preserved, clean old ribbon. The connecting link is original and has not been cut.

This medal was likely issued based on a 1944-45 award decree within a year or two after the end of the war. Overall, a very attractive piece!
