

DOSAAF Badge for Excellence in Studies, circa late 1960s.

Brass, "cold" enamels, lacquer; 35.7 x 25.4 mm. A very uncommon early version featuring nearly flat reverse in comparison with most other brass badges that have much more counter-relief on the reverse.

Excellent condition. The enamel and lacquer finish are perfect.

The badge was established in 1968. It was awarded to students of various DOSAAF schools and training courses, primarily for pre-draft age boys, for mastering the study program.
