

Motherhood Medal, 2nd class, Type 2, 1960s-80s issue.

Brass, enamels; the medallion measures 29.3 mm in width.

Very fine to excellent condition. The enamel on the suspension has a minuscule amount of surface flaking at the lower edge and a few tiny contact marks - all of it practically unnoticeable to the naked eye - no chips or significant wear. The details of the artwork of the medallion are perfect. Bright "gilt" mint luster on both sides with only minimal tarnish, no significant blemishes or oxidation spots.

Item# 46078
