

Breast Shield of an Officer of the Russian Federation Federal Agency for Interdiction of Illegal Drug Trade, 2004-2016.

In brass, "cold" enamels and lacquer, 84.2 x 61.7 mm. A very well-made piece. There is a provision for the individual service number at the top, left blank indicating that the badge is probably an unissued example.

In excellent, near mint condition, showing only a storage age. The enamel and lacquer finish are perfect.

Please note: The penny in the last photo is is there for size reference.
