

Lenin at Work, Large Statuette in Silumin Alloy, by sculptor Zavalov, 1960s.

Large sized at approx. 10 ½" tall. The base is 7 ½" x 5 ½"; weighs nearly 6 lbs. This is a scarce variant, with the overcoat, of the somewhat uncommon model depicting Lenin sitting on a log during his last fugitive period. The sculptor's name is seen in the back of the base. The sculpture is engraved with a gift inscription in Ukrainian language, reading "To our beloved school, in memory of the 11th grade graduates, 25 May 1966."

In excellent condition: very clean, with barely any signs of oxidation in some of the recessed nooks.

Please note that the medal in our photo is for size reference.

Item# 46701
