

Aluminum Box Marked "Military Medical Service RKKK", circa late 1930s - early 40s. Part of a WW2 Red Army medic's kit.

Measures 3 1/4" x 2 1/4" x 1 1/4" with the lid on. In excellent condition, without any tarnish and showing minimal scuffing. The lid sits on the bottom part tightly and does not fall off if the box is tilted or turned upside down.

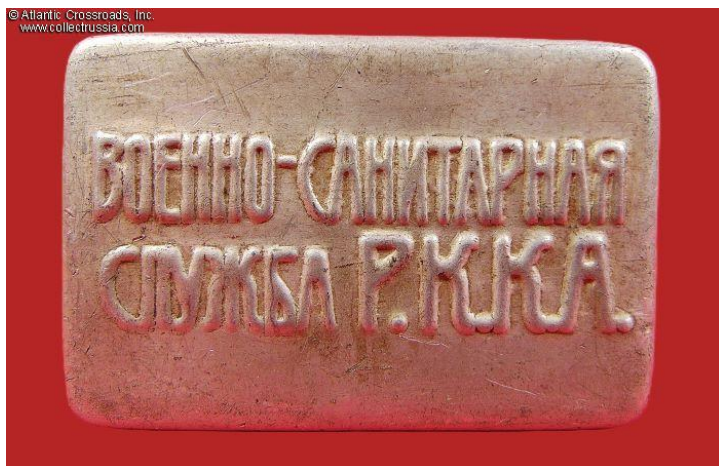

This is a scarce item from the times when packaging in plastic and disposable medical supplies were a thing of remote future. It will make a small but valuable addition to a Soviet militaria collection.

Please note that the penny in our photo is for size reference.

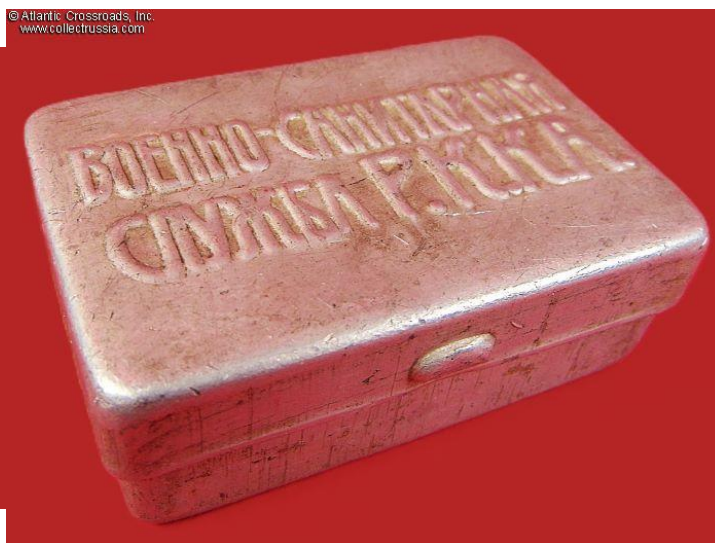

Item# 46843

\$150.00
