

### Army Officer Field Visor Hat, dated 1987.

In olive drab wool blend twill, without piping. Subdued OD hat badge and matching side buttons in plastic. The sweat diamond shows the logo of the Kiev Headgear Factory and a 1987 date of manufacture. Size 56 (US 7 / Medium) is stamped in white on the liner. There is a factory quality control stamp to the underside of the sweat band.

In very good condition, showing faint discoloration to the top of the crown and light water stains to the liner. The plastic visor is perfect, without the discoloration or scuffing typical for its type. Besides the water stains, the interior is immaculately clean and fresh.

The hat's shape is similar to much earlier officers' hats or even some field hats from the Imperial era - with a replaced cap badge it would work well for either WW 1 or WW 2 reenactments.
